- Some members of our staff have participated in various green training programs taught by organizations outside of our own.

The Green Building Products Initiative is funded through the generous support of the Richard King Mellon Foundation; The Heinz Endowments; and the Commonwealth of Pennsylvania, Ben Franklin Technology Development Authority.

AUTHORIZATION/PERMISSIONS

By submitting this application, I agree to permit Green Building Alliance and/or its designated agents access to general and confidential information necessary to complete the requested *JumpStart Assessment* program, such as but not limited to: list of product components, list of product sources and geographic locations, known environmental concerns or challenges.

My signature below indicates that I am authorized to enter into this agreement on behalf of _____ (company name), and that both the designated key contact and a C-level representative will participate in the kick-off meeting and final delivery presentation. I further agree to provide evaluation feedback upon completion of the assessment and at six- and 12-month intervals, upon request of the Green Building Alliance. I agree that participation in the program permits GBA to reference our company and this engagement, excluding any proprietary or confidential information, in public case studies and reports about the JumpStart Assessment program.

Signed:
